Wrangell, March 11, 1920.

The people of Alaska cannot vote for President but they manage to find plenty of other things to vote on. There will be a primary election on April 27. A municipal and special election will be held on April 6 at which a mayor and other town officers will be elected, and the question as to whether Wrangell shall have a municipal magistrate. Another question that will be submitted to the voters on April 6 will be whether the Town of Wrangell shall be empowered to issue bonds in accordance with the provisions of the Wrangell bonding bill which recently passed congress. This will be voted on in sections.

Mr. and Mrs. Doit Burnett and two children, and Mrs. Burnett's parents, Mr. and Mrs. William Mulcahy, arrived from Port Townsend on the Princess Mary Saturday afternoon. The two families expect to make their home in Wrangell.

Frank Waterbury returned Saturday from Milwaukee where he spent the past six months. He reports that there was a very severe winter throughout the middle west, and that one blizzard would scarcely be over before there would be another. Mr. Waterbury went to Milwaukee for medical treatment. He says that after he was well he had plenty of opportunities to go to work at good wages, but that after spending 20 years in Alaska he was unable to work in the cold climate of Wisconsin and Minnesota.

Wrangell Townsite Matter Is Closed

Mayor J. W. Pritchett yesterday received a check for \$858.54 from George A. Parks, chief of the Alaska Field division. Mr. Parks states that this money was sent by direction of the Commissioner of the General Land office. An excerpt from the letter is as follows:

"This sum [\$858.54] represents the proceeds derived from the assessments upon the lots, proceeds from the sale of unoccupied lots, and certain unclaimed moneys advanced by various parties to Duncan McKinnon, in the years of 1897 and 98, as a part of a fund collected by him to help defray the cost incident to surveying the Wrangell Townsite. These several amounts are apportioned as follows:

Unexpended balance from assessments	\$346.54
Lot sales	355.00
McKinnon fund	157.00
Total	\$858.54

"Referring to the item listed as the McKinnon fund, this is a part of a fund that was advanced to McKinnon during the years 1897-98, by various parties, then residents of Wrangell, to help defray the cost of making the survey and entry of the townsite, and should be repaid out of the lot assessment.

"A large part of the original fund has been repaid to those who advanced it, and a diligent search was made for those who advanced the remainder of the money. However, after months of careful inquiry, we have been unable to find any of those who are entitled to a refund of the balance, and the money is therefore included in the fund tendered to you. This is done by direction of the Commissioner by his letter above cited.

"It may be that some of those who advanced this money will later put in a claim, and I am attaching hereto a list showing the names of the several parties, together with the amount each advanced, for the purpose of enabling you, if you so desire, to make the refund should any of those entitled thereto apply to you for it.

"In this connection, you are advised that this office is at all times ready to furnish you with any additional information that you may desire concerning these claims."

Graves of Deceased Redmen Are Officially Marked

The Redmen's lodge on Sunday afternoon placed official markers on the graves of five of their deceased brothers. The members met at the lodge room at 1 p. m. and after clothing themselves in funeral regalia marched in procession to the cemetery where official markers were set up on the graves of the following deceased brothers: J. F. Hamilton, John Norton, William Cook, and Al Osborn. The grave markers are of aluminum and are practically indestructible.

G. E. Diemart Is Retired from the Town Council

G. E. Diemart is no longer a member of the town council. A few days ago W. E. Parrott received a letter from Mr. Diemart who is now in Kansas, which stated that he would not return north with Mrs. Diemart. He has been under medical treatment, and is disappointed that his physicians do not deem it expedient for him to return at this time. The gentleman's disappointment was shared by his fellow members of the council who were anxious to have him remain on the council until the end of his term which would have expired in April, 1921. But as he had been absent from more than three consecutive meetings it was thought best to decide before the caucus was held whether his place on the council should be declared vacant. Mayor Pritchett called a special meeting of the council Saturday evening and reported the information he had received concerning Mr. Diemart. A motion prevailed that Mr. Diemart's place on the council be declared vacant. This action by the council on Saturday evening made it possible for the vacancy to be reported at the caucus Monday evening, thereby giving the citizens an opportunity to make nominations for a successor to Mr. Diemart. At the municipal election in 1919 Glenn Diemart led the ticket. He made a good councilman, and has many warm friends in Wrangell who regret that circumstances over which he had no control made it necessary for him to be retired from the council.

A General Hauling and Transfer Business Conducted

To the Voting Public:

As a candidate for nomination on the Republican ticket for Senator from this division, I deem it my duty, to both the public and myself, to state briefly some of my views which will influence my course of action in the Legislature, should I be nominated and elected.

I believe in a practical, sane conservation of the natural resources of Alaska of whatsoever nature, as being essential to her greatest development.

I believe in encouraging the investment of capital in legitimate, permanent enterprises for the upbuilding of our industries.

I am opposed to exploitation methods, to which Alaska has long been subjected, both by non-resident corporations and individuals, who deplete her richest resources with sordid intent.

I believe in organized Labor, not in opposition to Capital and with destructive tendencies, but on a basis of loyalty to the Government, for educational and constructive purposes. I believe in the eight-hour day as the standard for labor, with such exceptions as necessity requires.

I believe in the profit-sharing system whenever practicable. I believe in the enactment of laws for compulsory adjustment of differences between Capital and Labor, where the public welfare is menaced.

I will support every sincere effort directed, in my judgment, to the advancement of the best interests of Alaska.

I believe in the greatest encouragement and support of the homebuilders in Alaska. I believe in the employment of home labor in preference to imported help, whenever practicable.

I believe that those who served our country in the cause of the Allies, in time of war, have special claims, in civil life, to preferment in their various vocations and positions sought.

I am opposed to anarchy and all similar theories which incite hatred for thrift and financial success, believing that they appeal to the combative and lower natures to the detriment of the finer and more elevating instincts of mankind. I am opposed to oppression of Labor by Capital. I believe in industry, in good wages, commensurate with ability and faithful performance of contracts. I am opposed to chronic idlers, either rich or poor. In short I stand for "The Square Deal," and progress.

I believe the United States of America is the best government on earth, but not perfect. I pledge my best efforts for its maintenance and betterment and toward making a better and greater Alaska.

Running Short on Potatoes at Telegraph Creek

W. E. Parrott received a letter yesterday from A. Everson of Telegraph Creek. Mr. Everson states that he had the misfortune to get burned out on January 22 when the temperature was 34 below zero. He reports that his wife and little ones are well and that two of the girls and Johnny are attending school regularly.

Mr. Everson complained that he is not receiving the Sentinel regularly. He says he has heard that there are four sacks of papers for Telegraph Creek in the office at Atlin, but that they might as well be in h— for all the good they are doing him there.

That better transportation facilities between Wrangell and Telegraph Creek would be to the mutual benefit of both towns is again indicated when Mr. Everson says:

"I wish I could send you a good fat moose quarter and you could send me a sack of your potatoes in exchange. Potatoes are a commodity that will soon be a thing of the past here. I have the promise of about 20 pounds which will have to do myself and family from now [Feb. 17] until navigation opens between here and Wrangell."

Regarding the weather, Mr. Everson says: "It has been a nice winter here except about two weeks in January when the mercury went down to 36 below. That was the coldest weather we have had."

Joseph Jandos, 89 years of age and a veteran of the Civil war, recently went from Anchorage to the Pioneers' Home at Sitka. He has lived in Alaska for almost a quarter of a century.

The Modern Priscilla will soon be increased to \$1.75 a year. For a short time a two year subscription may be had for \$2.50.

From present indications there are likely to be an unusual number of changes this year, as publishers advise that the price of paper and labor is increasing rapidly. We find, for example, that the cost of white paper, to mention only one item, has advanced 70% as compared with 1914.

You will be assured of the lowest prices obtainable and of quick, efficient service if you order your magazine through the Robert M. Edmunson Magazine Subscription Agency, Wrangell, Alaska.

Entered as second-class matter at the Wrangell, Alaska, post office, under Act of Congress of March 3, 1878.

Copies of the Alaska Daily Capital have reached the Sentinel's exchange table. The Capital is a newsy eight page paper, well gotten up, and has a liberal advertising patronage. The new paper is Republican in policy, and like its contemporary, the Empire, devotes some space in each issue to a discussion of matters political. Charles E. Herron is the publisher. J. W. Ward, a capable newspaper man, is editor and manager.

Of Interest to Trappers

G. H. Tozier arrived from the trapping grounds Monday afternoon with 160 skins.

Walter Waters came in Tuesday night with a nice collection of furs which he bought at the trapping grounds between Wrangell and Sulzer.

I. Goldstein of Juneau was in Wrangell Monday night en route home from a trip to the various trapping grounds in this vicinity. He had about 1600 skins which he had bought while on the trip. Mr. Goldstein was particularly proud of 75 prize martens which he had bought up the Unuk river on the Canadian side.

Sell your furs to W. C. Waters on the Princess Pat.

Charlie Olson came in Thursday from Eagle Creek with a fur catch of principally mink which he sold to Alex Vreatt.

A. L. Brown will be among the passengers who will arrive from the south on the steamer City of Seattle tomorrow evening. Mr. Brown recently left Craig with a large stock of furs which he sold in the States.

The Skin Buyers and Skippers

We have just four in Wrangell Who in business think it best To utilize their surplus cash— We'll leave that up to West.

Because he is in the market He never commits no sins But he is there and everywhere When it comes to buying skins.

And also there is Healy Of Wrangell fire renown Who will buy your skins Both thick and thin And never jew you down.

And then we come to Alex Vreatt Of the school house good and true Show him any kind of skin And he will tell you what to do.

Then do not forget Tozier Who is accumulating fame Because he will buy the fur Of any kind of game.

Fur Man Makes Trip North of Arctic Circle

(Whitehorse Star)
Alvin Goldstein, son of Charles Goldstein of Juneau, reached Whitehorse on his return from Dawson Friday evening on the White Pass stage. He left here several weeks ago for Dawson, and the Daily News of that city gives the following brief account of his journey between here and there:

"Mr. Goldstein came by stage to Selkirk, and from there he took the trackless trail down the Yukon river, which is far from the main overland highway. It was his first experience musing in the Yukon, and he proved good stuff.

"From Selkirk to Coffee Creek," says Mr. Goldstein, "it was necessary to break trail. Joe Menzies was with me with his dog team, and we got on all right, but it was mighty hard work. I certainly appreciated the bunk

GRIP, INFLUENZA

Hamlin's Wizard Oil a Reliable, Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and snuff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.

Full Citizenship for Natives

Subject Discussed by an Indian

The Sentinel is in receipt of the following interesting letter from L. P. Wilson, one of the progressive business men of Bayview:

While praying to the Great Spirit for the protection of "Old Glory," the American Indian also took an active part in the war. More than ten thousand Natives rushed to the colors and were incorporated in the Expeditionary Forces, proving our patriotism and valor on many hard fought fields. Now, we Natives are not looking for material recognition of our services, but we are asking for the privilege of citizenship in our native land.

Freedom is planted in every Indian heart. He appeals to the American people to let him have a part with free people in the progress of this world's changing history.

There is no greater patriot stands on the American soil than the American Indian. We have volunteered and fought for the Stars and Stripes in every war since Columbus landed. The aborigines have stood up and fought against all odds for inherited rights. It is going on 600 years and we have not stopped fighting for the same cause. Is it like the American people since the world's war ended to have a race of people as wards of the Government who are deprived of having a voice in the courts of claims in their own mother country which has 7000 Government employees looking after the welfare of 300,000 Indians in the United States?

I am sure the best thing that could happen to the Indian today would be for the Government to square up all treaties with tribes.

Let all Americans remember that hostility did not come until the white man wronged the Indians by long strings of broken treaties.

The American flag has given citizenship to every race and nation of the world whether they could read or write, but not to the American Indians.

The soul of every Indian was in this war. We know not the hyphen. We know not the pro this or pro that. We are one hundred percent Americans.

It is love of country in the Indian's heart that urges him to pull the bow against the invading foe, but we still plead to the American Government to give us nothing more than our rights. We are still knocking at the door of Congress for freedom and for a share in the American flag.

Out of 300,000 Indians in the United States nearly 10,000 served the colors. Eighty-five per cent of these were enlisted men. Our people have taken out over \$50,000,000 worth of Liberty bonds and have donated over \$2,000,000 to the Red Cross.

Such a demonstration ought to cause every patriot to reciprocate by urging a bill in Congress to have the Indian free, and bestow upon him full citizenship.

L. P. Wilson.

We regret that space will not permit us to publish a letter which Mr. Wilson addressed to the Alaska Natives advising them to take steps toward securing citizenship examination before Judge Jennings.

at Beaton's wood camp when I was enabled to roll in there. It was a mush of 18 miles between posts and for one not accustomed to the trail it was trying the first two or three days. Finally I got down to Stewart City, and then crossed via Henderson to Black Hills, and caught the stage there for Dawson. I was three weeks on the trail.

Mr. Goldstein left Whitehorse on Monday's train for Carcross and from there will make a round trip into Atlin.
